

CRLITE-4B

Dimmer

CRLITE-4B

Size(mm):
200.0(L)X186.0(W)X85.5(H)

Product overview

CRLITE-4B dimmer has four electric incandescent lamp dimming module to adjust brightness of incandescent lamp. The 4-way can achieve separate control, but also can control together. It is connected with the network interface on the computer.

Function characteristics

- 4 adjustable lighting interface.
- It can communicate with controllers like CR-PGMII, CR-PGMIII, + Touch-AV, CR-CPSIII etc. through the CR-NET interface.

Specifications

The parameter name	CRLITE-4B
Power requirements	AC 220V/50Hz
Loading capacity	Single power ≤ 1500W
4 power sum	≤2000W
Weight	About 2.5Kg
The static power consumption	1.7W
ID select	Rotate ID switch to set network ID code
